

ESOTERIC HEALING: LEVEL I

Course Instructor:
Constance McCloy, EdD, PT
Certified Teacher and
Practitioner of Esoteric Healing

**Would you like to better understand your life?
Your challenges? Your Soul's purpose?**

COURSE DESCRIPTION

Esoteric Healing provides a basic foundation for understanding spiritual consciousness and our human experience through the study of subtle energies and the energy field.

For thousands of years wise people and healers have been telling us that "we are energetic beings." Today's scientists and researchers have demonstrated this is true.

The word "esoteric" means "hidden, within, meant to be found." Esoteric Healing is an uplifting and integrative approach to healing that extends into the energy field beyond the physical body, bringing balance and wholeness to the emotional, mental and spiritual aspects of our being.

The course will focus on several topics:

- The energy centers (chakras)
- Physical organs and systems nourished by the centers
- Psychological and spiritual milestones/goals of each center
- Electromagnetic and other properties of energy as waves, particles and fields, and how they are related to energy work
- The influence of the Soul on health and healing
- The "Constitution of the Human" as it relates to spiritual evolution from "personality consciousness" to "Soul consciousness."

Course activities include lectures, practicals, discussion, and guided meditations. All students will be issued a detailed and illustrated course syllabus and binder.
